### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Wei T. Chung on 8/14/04.

The application has been amended as follows:

Claims 1-13 and 15 have been canceled.

Claim 14 has been amended and now reads:

14. An electrical connector comprising:

an insulative base comprising electric area for receiving a plurality of contacts;

a metal reinforcing plate is fully embedded in the base;

a metal clip moveably located about one end of the base; and

a lever moveably attached to the other end of the base opposite the one end;

wherein the reinforcing plate is a generally rectangular frame, the frame comprising four sides, an opening being defined among the sides and vertically in alignment with the electric area, a plurality of baffles angularly depending from corresponding sides;

wherein said baffles extend vertically; and

wherein the base is substantially rectangular.

Claim 16, line 2, "and fully embedded in the base" have been deleted.

Art Unit: 2833

The following is an examiner's statement of reasons for allowance:

Claims 14 and 16 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a generally metal rectangular reinforcing plate with baffles extended vertically from sides thereof wherein the metal reinforcing plate is fully embedded in the insulative base as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hien D. Vu whose telephone number is 571-272-2016.
